

Plexxus

Transforming Healthcare Support Services

November 22, 2006

Formerly known as Hospital Business Services ...

Since Hospital Business Services became operational earlier this year, we have been planning to change our company name. As our start-up phase comes to a close, we believe now is the perfect time to make this change. We are very pleased to share our new name, "Plexxus", and our logo, which was announced at our Annual General Meeting on November 21, 2006.

Our new name is based on the word plexus, which means a combination of interlaced parts; a network. We believe "Plexxus" is a perfect reflection of both the healthcare sector we serve, and the integrated solutions we provide.

You will also see "**Transforming Healthcare Support Services**", as part of the logo, to further explain what Plexxus does.

Our Mission :

Plexxus relentlessly seeks out opportunities to provide leading edge business support solutions to Ontario's healthcare sector that increase funds available for investment in direct patient care.

We are excited about the future of Plexxus and will update you, by e-mail, as we "go live".

Please direct any questions you may have to info@plexxus.ca.
